## ABOUT US

At Stairman we bring craftsmanship, innovation, and local expertise together to create staircases that elevates the heart of your home.

With over 20 years of experience and a passion for quality we manufacture and install staircases tailored to your style, space, and budget.

Whether you're after a classic timber staircase, a sleek modern design or a fully bespoke feature piece our team is here to support you.

Proudly local and committed to excellence, we are here to build more than stairs—we are here to build trust, reliability and assurance into every step.

**Standard with carpet on top**

# STAIRMAN

A well-crafted staircase is made up of more than just steps, it's the combination of key components that bring structure, safety, and style together. We supply and install high-quality staircase parts designed to suit a wide range of architectural styles and preferences.

Our range includes:

- **Treads & Risers** – Durable and stylish, available in various timber species and finishes.
- **Stringers** – The structural backbone of the staircase, precisely cut for stability and support.
- **Balusters** – From traditional timber to modern metal, these vertical posts add personality and protection.
- **Handrails** – Designed for both comfort and aesthetic appeal, available in a variety of profiles.
- **Newel Posts** – The main support posts offering strength and a stylish focal point.
- **Post Caps** – Decorative finishes to newel posts that complete the look of your staircase.

Every component we supply is crafted to meet Australian standards and designed to integrate seamlessly into your project—whether you're after timeless elegance or a contemporary edge.

## TIMBER OPTIONS

We supply a wide range of high-quality timber specifically selected for staircase construction. Whether you're after classic elegance or a modern touch, our timbers are chosen for their strength, beauty, and long-lasting performance.

We offer a variety of species—including Red Oak, Spotted Gum, Blackbutt, Merbau, and American Oak—each known for its unique grain, colour, and durability.

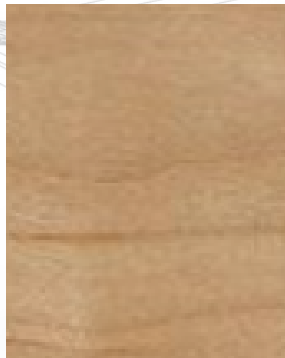

All our timber is sustainably sourced and expertly milled to ensure consistency and superior finish across treads, risers, stringers, posts, and handrails.

From sleek contemporary styles to timeless traditional designs, our timber is the perfect foundation for creating a staircase that is both functional and a true architectural feature.

## POST AND POST CAPS

**Standard profiles**

### Posts

Crafted for both strength and style, our standard staircase posts provide the essential support structure for balustrades while enhancing the overall aesthetic of any stair design.

Made from high-quality timber and Pine these posts are precision-engineered for durability and stability

Available in a range of profiles they seamlessly complement both traditional and contemporary staircase styles.

Whether used at landings, winders, at the base of the stair or as part of your void, our posts ensure compliance with safety standards while elevating the look of your staircase

### Post Caps

Add the perfect finishing touch to your staircase with our post caps.

Designed to complement a wide range of post profiles, these caps provide both functional protection and visual appeal. Available in various shapes—such as flat, beveled or decorative—our post caps help protect against wear while enhancing the overall look of your stair balustrade. Crafted from durable timbers, each cap is engineered for long-lasting performance.

Whether you prefer a sleek modern finish or a more classic detail, our range of post caps delivers the ideal blend of style and practicality.

## GLASS BALUSTRADE

Add a touch of modern elegance to your staircase with our premium glass balustrades.

We supply high-quality glass balustrade systems that offer clean lines, unobstructed views, and a contemporary finish.

Our balustrades are manufactured using toughened safety glass and installed with either standoff pins or spigots ensuring long-lasting performance.

Ideal for open-plan living and light-filled spaces, our glass balustrades enhance the visual flow of your home while providing the security and strength you need.

**Stand off pins**

**Spigots**

## HANDRAILS

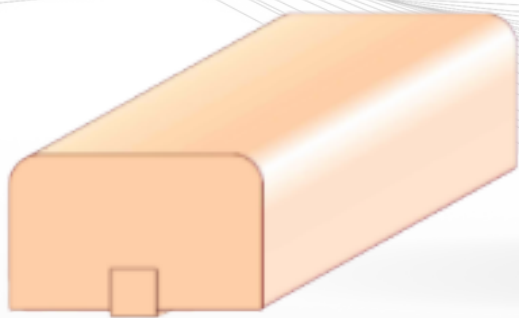

Handrails are more than just a safety feature, they are an essential design element that ties your staircase together.

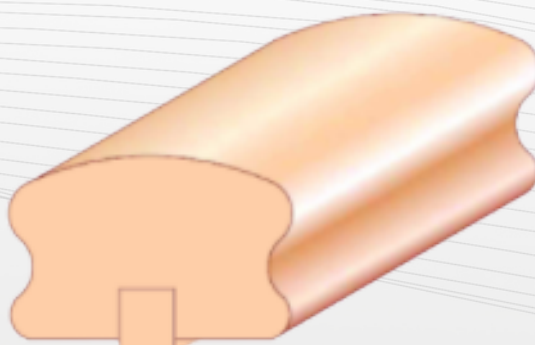

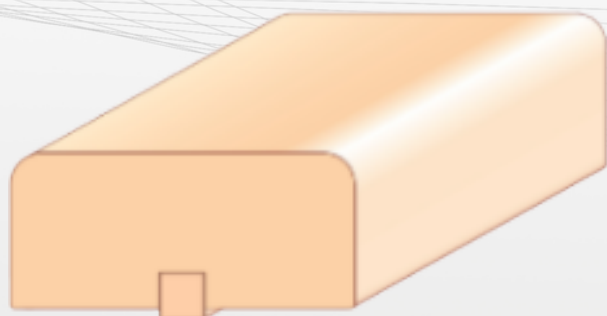

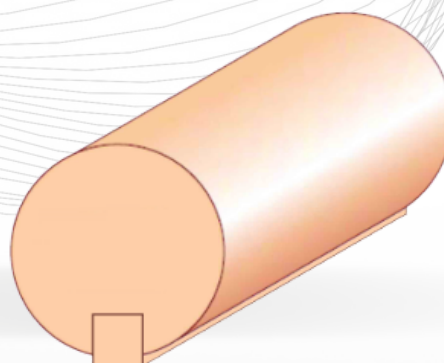

We offer a wide selection of high-quality handrails to suit any style, from classic timber rails to sleek modern profiles. Crafted with precision and care our handrails are available in a variety of timbers and finishes to match your staircase and interior design.

Every handrail we supply and install is designed for comfort, durability, and compliance with Australian safety standards.

## EXTERNALS

We design and build external staircases that combine durability, safety, and visual appeal. Perfect for decks and outdoor access points, our staircases are made to withstand the elements while complementing the style of your home or building.

We use high-quality, weather-resistant materials such as treated timber and hardwood to ensure long-lasting performance.

Whether you need a simple, functional design or a custom architectural feature, our external staircases are built to meet Australian standards and tailored to suit your space.

From concept to completion, we provide expert advice, quality workmanship, and reliable installation—creating outdoor stair solutions that are as practical as they are attractive.
